

**Kichanga, DR Congo  
July 2003**

**Kichanga is a village of approximately 50,000 people located four hours drive from the nearest town. There is no electricity or running water in this area of deep Africa. Surrounding Kichanga is a Rwandan refugee camp and a village of pygmies. In July 2003 we will hold a crusade in this little known (even among Congolese) village.**
